

2021 SEMI-DRY RIESLING

Drink Window: Now – 2025 – 2028.

Our “Semi”-Dry Riesling is back after a year’s vacation. It has returned refreshed and quenched and ready to do the same for you.

Honeydew melon and flint caress your nose, followed by a palate redolent with a stone fruit orchard; peaches, nectarines, and apricots with a bright minerality of slate layered throughout. Drier than its name would suggest, this Riesling is crisp, brimming with fruit, and sassy! Just right!

Serve at 42° - 51° f
